EXPERIENCE

MERN Stack Developer Intern - RND Technosoft, Vapi, GJ

June 2024 - Aug 2024

Gained experience as a MERN Stack Developer Intern, building responsive, scalable and efficient websites

PROJECTS

Niket Communication :

- Developed a fully dynamic e-Commerce website clone using **MERN Stack**, **Tailwind CSS** and **GSAP**, replicating Niket Communication's features and functionality. Key highlights include:

- Admin login and authentication using JWT.
- Dynamic product management with add-to-cart functionality.
- Responsive design and animations ensuring optimal user experience across devices.

EDUCATION

Bachelors of Computer and Application | July 2021 - Apr 2024

Rofel BBA & BCA College, Vapi, GJ, IN

PERSONAL PROJECTS

CharityNest - Donation and Waste Management System:

- Designed and developed a cutting-edge **MERN stack** web application, utilizing **Tailwind CSS**, to promote eco-friendly living and item reuse. The platform comprises three interconnected modules:

- Administrator Dashboard: Manages users, donations, and analytics.
- Logistics Interface (Agent): Optimizes pickup scheduling and coordination.
- Donor Portal: Empowers users to contribute and monitor item distribution.
